crafters and growers and promote gourd appreciation.*

GENERAL RULES FOR ALL GOURD ARTISTS

We welcome and encourage everyone to enter their art in the gourd competition.

1. There are a maximum of six entries per entrant, excluding gourds entered in category K.
2. Only two entries per category may be entered.
3. Each entry must be the work of the entrant and not a collaboration with another individual. Youth categories may have help with things needing adult supervision, such as cutting with a saw, etc.
4. All entries must have been created within the last one year, but not previously judged in an IDGS festival. If a gourd was entered in an IDGS festival competition, it may also be entered in the IAW show judged competition or vice versa.
5. An entry may be an original design, or it may be based on patterns, techniques, or tutorials from classes or inspired from elsewhere. Judges give greater weight to originality when making their determinations. When your piece is not original, share the source of your inspiration and give credit to the original artist if you can, or state on the entry form "found on Pinterest," or elsewhere. Mark the entry form whether original or not.
6. It is the obligation of the entrant to best select the appropriate division and category for his/her art. If the judges determine that an entry is inappropriately placed in either a division or category, the judges may move it to a more appropriate division or category to avoid disqualification and rejudge the division or category if necessary.
7. IDGS generally looks to the American Gourd Society for guidance concerning prospectus language, entries, judging and procedures concerning competition.
8. Electricity is not available and lit candles are prohibited. Only battery operated lighting is allowed.
9. Photography **will be** allowed at the competition. By participating in the show competition and/or display art, the artist understands that photos may be used by IDGS to further the mission of IDGS. They may also be used by AGS.
10. This is a family event; the judges have the right to remove any item(s) that may be offensive.
11. If the entrant has won five first place awards, or Best of Division in Novice, Intermediate, or Advanced divisions, he/she must move up to the next division in this show. If a skill/technique is new to the entrant, he/she may enter the piece in a lower division. Submitting a piece in the Masters division is completely arbitrary and does not impact other division placements in current or future shows.
12. The artist may include a brief description about the entry (artistic reflection or an explanation, background, history, etc.) on a card no larger than 5" x 7".
13. Pre-registration is extremely helpful to the set-up team as they prepare the competition tables to ensure that there is adequate room to properly display entries. Please pre-register.
14. This is a non-juried show and all judges are volunteers. As such, the Head Judge is charged with selecting appropriately trained judges for each division.
15. IDGS will provide reasonable security, but assumes no responsibility for accidents, damage or theft.

Please see the American Gourd Society website for the current official rules including how to qualify to enter the National Jim Story Award contest.

Category M – Jim Story MULTIPLE, INSEPARABLE Manipulated (Dried)

Multiple manipulated gourds are manipulated so that they are inseparable. Entries may have multiple manipulation techniques, such as knotted and molded, coiled and molded or etched while green. Multiple manipulated entries can also be grown in different years, such as a green gourd manipulated around a previously grown & dried manipulated gourd.
